The screenshot shows the Invision Power Board Administration Center in Microsoft Internet Explorer. The page title is "Email Error Logs Manager". The interface includes a navigation menu on the left with options like "Shape & Templates", "Languages", "Administration", "Post Office", "Task Manager", "Invision Gallery", "Statistics Center", "SQL Management", and "Board Logs". The main content area displays "ACP Home / Email Error Logs (Show all)" and "Stored email error logs". Below this is a table of "Logged Emails Errors" with columns for "To", "Subject", "Error MSG", and "Date".

To	Subject	Error MSG	Date

The screenshot shows the Invision Power Board Administration Center in Microsoft Internet Explorer. The page title is "Email Error Logs Manager". The interface includes a navigation menu on the left with categories like "Skins & Templates", "Languages", "Administration", "Post Office", "Task Manager", "Invision Gallery", "Statistic Center", "SQL Management", and "Board Logs". The main content area displays "ACP Home / Email Error Logs (Show all)" and "Stored email error logs". Below this is a table of "Logged Email Errors" with columns for "To", "Subject", "Error MSG", and "Date". There are four rows of error logs, each with a checkbox and a red number (1, 2, 2, 3) next to the "To" field. The "Error MSG" column contains the text "Could not send the email" for all entries. The "Date" column shows various times on July 15th, 2004. Below the table are "Remove Checked" and "Remove all?" buttons. At the bottom, there is a "Search Email Error Logs" section with a search box and a "Search" button.

Stelling

A handwritten mathematical proof of the Pythagorean theorem on a spiral notebook. The proof uses a geometric diagram of a square with side length $a+b$ and an inscribed square with side length c . The area of the large square is $(a+b)^2 - c^2$, which is equal to the area of four right-angled triangles with legs a and b . The area of one such triangle is $\frac{ab}{2}$, so the total area of the four triangles is $2ab$. Equating the two expressions for the area of the large square yields the equation $(a+b)^2 - c^2 = 2ab$, which simplifies to $a^2 + 2ab + b^2 - c^2 = 2ab$, and finally to $a^2 + b^2 = c^2$.

$(a+b)^2 - c^2$
= area of four triangles

area of one triangle
= $\frac{ab}{2}$

area of four triangles = $2ab$

$$(a+b)^2 - c^2 = 2ab$$
$$a^2 + 2ab + b^2 - c^2 = 2ab$$
$$a^2 + b^2 + 2ab - 2ab = c^2$$
$$a^2 + b^2 = c^2$$

Eigen woorden toevoegen

Dit boek is bij lange na niet compleet. U kunt zelf woorden toevoegen. Verander echter niets aan de tekst- en achtergrondkleur en lettertype. Deze zijn namelijk op wetenschappelijke basis gekozen.

Om zelf woorden aan dit woordenboek toe te voegen, gaat u als volgt te werk:

Ga naar het overzichtsscherm van Powerpoint. Kopieer een willekeurige dia en plak deze op de gewenste plek in het woorden boek. Dubbel klik op deze dia (werkscherm). Vervang het bestaande woord door uw eigen woord. Selecteer de bestaande afbeeldingen en verwijder deze. Doormiddel van “invoegen” – “figuur” – “bestand”, voegt u uw eigen afbeeldingen in. Ga terug naar het overzichtsscherm en zoek de betreffende letter op. Dubbel klik op deze dia (werkscherm). Vervolgens voegt u (alfabetisch) uw woord toe. Selecteer nu uw woord en kies met de rechtermuisknop “hyperlink”, ga naar “bladwijzer”, klik daar op de naam van de dia waarmee uw woord verbonden moet zijn. Klik op OK. Onder het woord is nu een streep verschenen. Ga nu naar het presentatiescherm en controleer of de hyperlink werkt. Sla uw verandering onmiddellijk op.
